# Chrome Street

## *Modern Quartet*

Chrome Street is a Modern/Classical Acoustic Hybrid that plays arrangements of modern and popular music with a classical twist: a chamber quartet like you've never seen playing music like you've never heard.

Chrome Street is known for playing its unique versions of popular cover tunes from all types of musical genres. Their unique instrument combination of oboe, violin, guitar, and cello makes for a beautiful and awesome listening experience.

Forget the stuffy, square versions of other classical musicians playing pop songs, and get ready for instrumental covers that rock.

Chrome Street is genre-bending at its finest.
